## Seema Gudivada

Director of Therapies, Birmingham Community Healthcare NHS Foundation Trust

Seema Gudivada is a Director of Therapies at Birmingham Community Healthcare NHS Foundation Trust. She is a physiotherapist with extensive experience in rehabilitation and developing clinical pathways. As a clinical lead, she has played a key role in developing the long covid MDT clinics and the pathway for Birmingham and Solihull Integrated Care System.

## Dr Nandan Gautam FRCP FFICM

Consultant Lead, UHB

I am a Consultant in General Medicine and critical care at the queen Elizabeth hospital in Birmingham. Father to a joyful 13 yr old daughter and husband to an understanding (also a doctor) wife. My clinical and academic interests are wide ranging but over the last few months I have been heavily involved in acute and post acute covid care. I turned 50 this year and promptly got a dog and a campervan. Make of that what you will. If I had a slogan to promote it would be “knowledge should be sought and experience should be shared”
