

NAHH Conference 2022

Taking what we have learnt into the Future...

Alison Leary Biography

Professor Alison Leary, Chair of Healthcare and Workforce Modelling at LSBU was awarded a Royal College of Nursing (RCN) Fellowship in June 2015.

In 2014 Alison was named on the Nursing Times Leaders list and also named as one of the Health Service Journal's Inspirational Women in healthcare. Currently carrying out research – funded by NHS England into the impact of inpatient acute nurse staffing on patient outcomes.

With a strong interest in specialist and advanced practice, Alison shares her expertise by regularly writing on healthcare issues and is the editor of Europe's best-selling lung cancer textbook. After spending ten years in biomedical science and biomedical engineering within the NHS, Alison undertook a nursing diploma at The Nightingale School at St Thomas Hospital (now Kings College London). She attained a Masters in Biomedical Science (Haematology) before specialising in lung cancer and thoracic surgery. Alison later obtained a PhD in medicine from University College London in thoracic oncology and continues to research in this area. Her work also includes undertaking various projects around the modelling of complex systems.

Session Title: The impact of community nursing: Covid learnings benefiting the future

Outline to follow
