

Speaker Biography

Session Details

Date	Thursday 5 October 2017
Time	11:50 – 12:15
Title	Envisioning the Digital Hospice

Tim Cockle

Head of Digital Strategy – Eduserv

Tim works as Head of Digital Strategy at Eduserv, before joining Eduserv, Tim worked as a Solutions Architect Consultant across several sectors and a diverse mix of technologies including service oriented architecture, mobile computing, clustered and distributed systems, visualisation, cloud and artificial intelligence. His experience in integration projects includes leading pioneering projects within the NHS including piloting mini-services for access to patient records across health and social care.

Tim is a Chartered IT Professional with a Ph.D. in Distributed Computing and an MBA specialising in Technology Management. He seeks to help organisations realise the benefits offered by leading technology through understanding business needs whilst respecting real world constraints.

NAHH Annual Conference 2017

Inspiring our Communities: Time for Change in End of Life Care

Thursday 5 – Friday 6 October 2017

Kents Hill Park Training and Conference Centre, Milton Keynes
