## Emma Husbands

*Consultant Palliative Medicine, Gloucestershire Hospitals NHS Foundation Trust*

Emma works across hospital and community settings within Gloucestershire and sees people with a wide range of life-limiting conditions. The service has seen non-cancer referrals steadily increase in the past 7 years such that her team are regularly seeing as many patients with non-cancer conditions as with cancer. Emma has a particular interest in young adults with complex neurodisability and other neurological conditions and has worked with MNDUK and MDUK to improve patient and professionals guidance/information.
